

Happy Holidays from Rose Li and Associates

The RLA team wishes you peace, joy, and prosperity throughout the holiday season and the coming year. Thank you for your continued support and partnership. We look forward to working with you in the years to come!

New office

Visit us at our new LEED-certified office location.

1101 Wootton Pkwy, Suite 400, Rockville, MD 20852.

New staff

RLA is pleased to welcome three new staff members:

- **Len Lapidario** (Business Manager) manages the company's accounting, contracts, and other business administrative functions, while positioning RLA for future growth and increasingly efficient operations.
- **Kelly Beazley, PhD** and **Victor Buckwold, PhD** (Scientific Managers) provide support to the Congressionally Directed Medical Research Program (CDMRP) through our subcontract with Leidos, as well as science writing and research/analytic support to other RLA clients.

Learn about all of our outstanding staff members at the [RLA website](#).

New projects

RLA is growing its capacity to deliver on its four core competencies: research and analysis, science writing and communication, conference services, and other program support.

In September 2017, RLA was awarded an 8a award valued at \$2.8 million over 5 years to provide logistical support, report writing, and website management to the **National Committee on Vital and Health Statistics** and the **National Center for Health Statistics** Board of Scientific Counselors. [Learn more >>](#)

Also in September, RLA was awarded a subcontract from Leidos to coordinate scientific reviews of biomedical research funded by the **Congressionally Directed Medical Research Programs**. [Learn more >>](#)

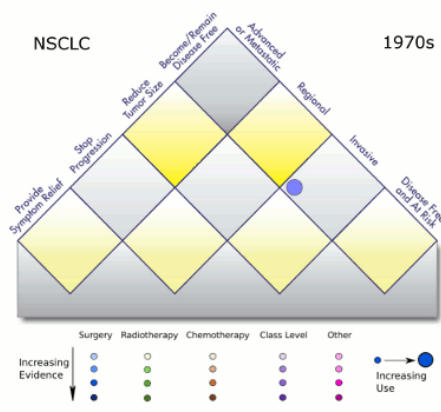

New publications from our PACE project

As part of Lilly's **PACE** project, RLA supported the writing of two recently published journal articles and a blog post:

["Dynamic Value Assessments in Oncology](#)

"We Need to Raise the Bar to Improve Cancer Treatments. What's the Best Way to Do It?"

"Approving cancer treatments based on endpoints other than overall survival: an analysis of historical data using the PACE Continuous Innovation Indicators)"

You can help move science forward
